## Introduction

Your taste, our best

Welcome to **Interfresh Food and Beverage Co., Ltd.**, a distinguished manufacturer and exporter of our premium beverage collection. Our journey began over a decade ago in the agricultural industry under the name '**Dr Fresh**,' where we cultivated expertise in the growth, processing, and global export of agricultural products.

Having evolved into pioneers in the beverage sector, Interfresh now offers a diverse range that includes carbonated and non-carbonated fruit juices, energy drinks, nut milks, coconut water, teas, and a variety of other natural beverages. Our commitment to excellence is reflected in the utilization of modern and fully automated production lines, totaling 6, which ensure that each of our drinks maintains its natural flavor and freshness. This dedication to quality guarantees that our customers receive only the finest products.

Join us on a journey where agricultural excellence transitions seamlessly into beverage innovation.
